

Hossein Mohseni

Data Scientist & Python Programmer

About Me

Hello! I'm Hossein Mohseni. I'm a 22 years old student of software engineering who started programming one year before going to university with language C++. But after going to university I started Python programming and now I am a skilled python programmer. I am passionate about Data Science and ML. Beside being a programmer, I have some activities on music, especially on metal and rock. I am also a content creator on Youtube in my free time.

Age	23
Email	mohseni.h1999 [at] gmail [dot] com
Location	Arak, Iran

Main Skills

Python

Data Science

NLP & Text-Mining

HTML, CSS

Django

Other Skills

FL Studio

Android Programming

UI/UX Design

Music Knowledge

Electric Guitar Playing

Graphic Design

Work Experience

Data Scientist and Python Development at Roupel DataWare Co.

Jan 2020 - Present

I started my work in Roupel Company since Jan 2020, but actually I was not a Data Scientist at first. After April 2020, my main focus is on data science and I am constantly studying and practicing in this field.

Graphic Designer (Self-Employed)

Apr 2017 – Jan 2021

Graphic designing was my first career in life. But after a while, I realized that I was not very interested in graphic design and it is boring for me. So I stopped working on graphic design. I am currently doing personal designs for fun.

UI/UX Designer (Self-Employed)

Nov 2019 – Sep 2020

Education

Bachelor Of Computer Software Engineering from Arak University

2018 - Present

Science and Mathematics from National Organization for Development of Exceptional Talents (Sampad)

2014 - 2017

Languages

Persian (Native)

English (Professional)
